Re: Final Indirect Cost Rate for Fiscal Year ended June 30, 2008

Dear Mr. Cunningham:

We have reviewed the City of Vacaville's (City) Public Works Department (DPW), Engineering Services Division's final indirect cost Negotiation Agreement approved by the United States Department of Housing and Urban Development (HUD) for fiscal year 2007/08. Since HUD is the cognizant federal agency for the City, we defer to HUD the approval of the DPW's indirect cost agreement of 101.31 percent of direct salaries and benefits. The DWP billed indirect costs to the California Department of Transportation (Department) during fiscal year 2007/08 using a provisional rate of 105.75 percent, use of which was granted by the Department on May 14, 2008. Within 30 days of the date of this letter, the City must reconcile all prior reimbursed claims under the provisional rate with the final approved rate.

Please retain a copy of this letter with your indirect cost Negotiation Agreement. Copies of this letter were sent to the Department's District 4, the Department's Divisions of Accounting and Local Assistance, and the Federal Highway Administration. If you have any questions, please contact Amada Maenpaa, Audit Manager at (916) 323-7868.

*Base: Direct salaries and benefits

Section II: General

A. LIMITATIONS: Use of the rates contained in this agreement is subject to any statutory or administrative limitations and is applicable to a given grant or contract only to the extent that funds are available. Acceptance of the rates agreed to herein is predicated upon the conditions: (1) that no costs other than those incurred by the grantee/contractor or allocated to the grantee/contractor via an approved Central Service cost allocation plan were included in its indirect cost pool as finally accepted and that such incurred costs are legal obligation of the grantee/contractor and allowable under the governing cost principles, (2) that the same costs that have been treated as indirect costs have not been claimed as direct costs, (3) that similar types of costs have been accorded consistent treatment, and (4) that the information provided by the grantee/contractor which was used as a basis for acceptance of the rates agreed to herein is not subsequently found to be materially inaccurate.

B. AUDIT: Adjustments to amounts resulting from audit of the cost allocation plan upon which the negotiation of this agreement was based will be compensated for in a subsequent negotiation.

C. CHANGES: If a fixed or predetermined rate(s) is contained in this agreement it is based on the organizational structure and the accounting system in effect at the time the proposal was submitted. Changes in the organizational structure or changes in the method of accounting for costs which affect the amount of reimbursement from use of the rate(s) in this agreement, require the prior approval of the authorized representative of the responsible negotiation agency. Failure to obtain such approval may result in subsequent audit disallowances.

D. NOTIFICATION TO FEDERAL AGENCIES: Copies of this document may be provided to other Federal offices as a means of notifying them of the agreement contained herein.

E. SPECIAL REMARKS: Federal programs currently reimbursing indirect costs to this Department/Agency by means other than the rates cited in this agreement should be credited for such costs and the applicable rate cited herein applied to the appropriate base to identify the proper amount of indirect costs allocable to the program.
